COTTON MARKETS.

NEW YORK. July 19.—The cotton market opened steady today at an advance of 5 to 8 points in response to relatively steady cables, but quickly weakened under scattering liquidation and local pressure. The easier ruling of the stock market and rather more nervousness over political conditions probably inspired part of the Walls street selling, while southern selling oorders were accompanied by rather more favorable crop reports from some eastern belt sections, and offerings were later encouraged by a forecast for showery' weather in the western belt. Prices toward the end of the first hour were 3 to 12 points net lower. Futures opened steady; July, 8.95; October, 9.41; December, 8.73; January, 8.81.

A private crop report issued early made the condition 77.5 July 9, against 79.4 June 22, but the indicated deterioration was without effect on sentiment, and the market was unsettled Pettibone-Muliken. 65 65 months selling about 20 to 21 points net! lower under continued liquidation and scattering pressure.
